## Sansara Pathe

If students follow the path of brahmacharya and then enter into the life of a householder, then their children will be healthy, strong, brave, spiritual and have high life expectancy. Then, there will be progress of the society, progress of the nation, progress of the religion, everything will see progress on its own. Meritorious, sagacious and high-cultured people will surely become efficient, and they will be able to cultivate gold in the soil of India. Golden India will again transform into the land of Gold.

Education and right disposition are primary among all qualities. In the absence of these two, it will be difficult for a son to retain any amount of inheritance from his father. Although everyone is interested in these qualities, no one is working in line with those interests. It is a big mistake to think that our responsibilities towards students end when we send them to school. It is the responsibility of every person to focus their attention on things that improve the physical and mental strength of students. It is my request to all progressive leaders that they should consider with a steady mind on how the lack of practice of *brahmacharya* has led to the degradation of society! The Hindu lineage is proceeding in the path of destruction. Starting from student life, if one does not take a vow of *brahmacharya* and practice it while trying to spread true knowledge, then there will be no welfare of the society. '*Gatasya Sochanä Nästi*' there is no point in lamenting about what has already happened. For the sake of the future, be cautious and protect the youth. Try to teach the benefits of *brahmacharya* among the common people. Don't feel ashamed to provide the education that teaches humanity to humankind. If *brahmacharya* education is considered distasteful and ignored as a result, then Hindus cannot be saved anymore. Today, we have lost long life expectancy, strength, good health, brilliance, ability to concentrate, and bravery solely due to the lack of *brahmacharya*.
